

AGRONIX

The portal of services, of data elaboration
and
of technical-agronomic documentation

Registration to the portal

Access to the portal AGRONIX is completely free. To enter you must register using the appropriate link on the top right of the homepage.

The registration page includes a basic registration and complete.

Complete registration provides the user the free access to database of technical document of crops, but the functionality of the system are identical in both type of registration.

The section "Available services" contains the list of services which can be accessed if selected. The base service is that of "Fertilization plans" that allows the preparation of plans for fertilization of productive units which management is offered for single farm for free subscriptions and for multi-farm for fee subscriptions.
